Tonoferon

Tonoferon product range are designed to support haemoglobin production by incorporating gentle iron, thus reducing tiredness and fatigue associated with low iron and folic acid in the diet.

It contains B vitamins for increased energy release, zinc, trace elements, and Lysine, which acts as an amino acid for protein synthesis and also protects against viral infections such as the flu virus and herpes zoster.

Vitality, Immunity & Wellbeing

Enervit

Enervit is vitamin-based multivitamin syrup that is used to treat vitamin deficiencies, malabsorption, and metabolic stress. Enervit Syrup contains all the vitamin compounds necessary for normal growth, nutritional deficiency, physiological stress, simplex infections, metabolic functions, and the building of infection resistance

B-Folcin Plus

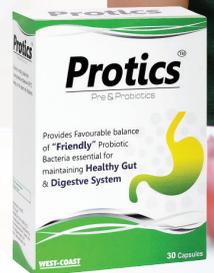

B-Folcin plus Tablet is a unique combination of folic acid, lactobacillus, Niacinamide, and riboflavin.

Protics

Protics provides and maintain a favorable balance of friendly probiotic bacteria necessary for maintaining a healthy gut and digestive system.

It helps with digestive issues, lactose intolerance, constipation, diarrhea, and bloating, and boosts the immune system when combined with antibiotics.

Nutritional Information

Average Per Capsule

Streptococcus Faecalis	30 million
Clostridium Butyricum	2 million
Bacillus Measentericus	1 million
Lactic acid bacillus 50	50 million

VEECEE ZN

VEECEE ZN is a nutritional supplement with vitamin C and Zinc as active ingredients used to treat Vitamin C deficiency in the body caused by poor nutrition, diseases, medications, or pregnancy.

As a natural antioxidant, Vitamin C slows the process of cell damage, boosts immunity, protects the body from diseases, promotes wound healing, skin repair, and increases bone strength.

VEECEE 1000

VEECEE 1000 is a nutrient supplement effervescent tablet containing 100mg of vitamin C used to prevent or treat vitamin C deficiencies. These tablets are high in Vitamin C, and helps to boost immunity to the highest level so that the body can fight the risk of all types of health problems.

Enervit Fizz

Enervit Multivitamin contains a variety of vitamins, including Vitamin A, Vitamin C, Copper, Vitamin E, Zinc Sulphate, Vitamin B6, and Vitamin B1. With an adequate supply of key vitamins, it aids in the protection of cells from oxidative stress, contributes to the reduction of tiredness, fatigue, and normal energy metabolism, and promotes normal protein and glycogen metabolism for a healthy body.

Bone Health

OsteoVite

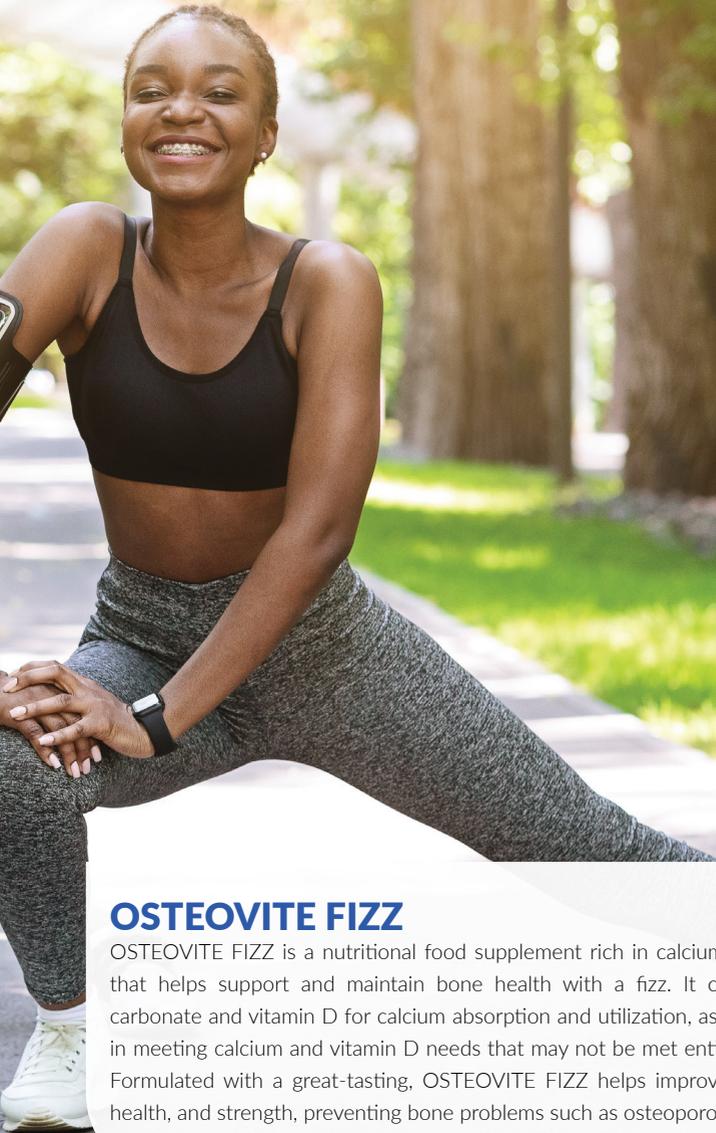

OsteoVite has been scientifically developed to provide a rich source of calcium and the preferred form of Vitamin D3 (cholecalciferol) to maintain normal bone health and bone mineralization. It is a chewable tablet with pleasant mint taste

OsteoVite Gold

OsteoVite Gold is a special bone building formula that locks together 3 essential active ingredients for building strong and dense bones, containing clinically researched, naturally derived Vitamin K2-M7, calcium and Vitamin D3 in clinically recommended doses.

This formula targets specifically women at 40+, menopause and post menopause to prevent osteoporosis.

OSTEOVITE FIZZ

OSTEOVITE FIZZ is a nutritional food supplement rich in calcium and vitamin D that helps support and maintain bone health with a fizz. It contains calcium carbonate and vitamin D for calcium absorption and utilization, assisting the body in meeting calcium and vitamin D needs that may not be met entirely by our diet. Formulated with a great-tasting, OSTEOVITE FIZZ helps improve bone density, health, and strength, preventing bone problems such as osteoporosis.

Joints Health

JointGuard

JointGuard contains Glucosamine Sulphate that is an important nutrient for the maintenance of joint health, as the body's ability to manufacture collagen appears to decline with age.

Chondroitin is also included in JointGuard as it works synergistically with Glucosamine to help renew and repair cartilage, and maintain the lubricating properties of fluids around the joints

JointGuard Gold

JointGuard Gold uses clinically proven doses of glucosamine, chondroitin and MSM to give complete care and protection to joints.

Combining the 3 most effective natural compounds for joint protection, JointGuard Gold is our most effective formulation and suitable for sportsmen and women, 50+ who lead an active lifestyle and can also help when recovering from joint injuries.

JointGuard Max Strength - Glucosamine 1500mg

JointGuard Max Strength tablets provide a high strength formula for ensuring optimum joint health and mobility with the convenience of one tablet a day.

It has been scientifically proven to reduce the pain and stiffness associated with joint disease and reduces dependence on painkillers and improves mobility significantly.

Cenvitan: Multivitamins & Minerals

For every life stage for men, women & children!

Cenvitan Men

Cenvitan men multivitamin and multimineral are formulated with vitamins and minerals to help improve overall male health, including digestive, heart, eye, and brain health, as well as overall wellbeing.

This multivitamin supplement contains a perfect combination of essential vitamins, which are required for vitalizing the body with key nutrients that help to fill dietary gaps.

Cenvitan Women

Cenvitan Women multivitamin is a supplement specially made for filling women's daily nutrition requirements with over 24 key nutrients that are important to help fill dietary gaps.

It's customized for women with nutrients to help support bone health as well as the heart, brain, hair, skin, and eyes. It helps support energy, immunity, metabolism and help women maintain a healthy appearance

Cenvitan Taurine

Cenvitan Multivitamin Taurine tablet is a dietary supplement for children that help to improve brain and eye development for healthy growth.

With its balanced ratio of B complex vitamins and nourishing real food, it helps fill key nutrient gaps to support overall wellness, promotes healthy energy levels, and supports your child's growing digestive and immune health.

Cenvitan Lysine

Cenvitan Lysine for Kids is a multivitamin and multi mineral tablet for children that help in the improvement of appetite, digestive health, and growth.

This combination improves appetite due to increased body metabolism and demand for food, promoting muscle growth, height, and weight gain, and supporting their developing immune system

Children

Tonoferon Drops

Tonoferon Drops is a combination of four supplements; Iron, Cyanocobalamin, Folic acid, vitamin B12 and Lysine and is used to treat and prevent nutritional deficiencies in children.

It helps restore the decreased level of essential components required for the growth, helps in improving the metabolism, increasing the appetite, and improving body weight and aid in boosting physical as well as mental development, immunity and vitality.

B-FOLCIN KID

B Folcin Kid Tablet is a combination of Riboflavin, Folic Acid, Niacinamide, and Lactic Acid Bacillus.
